RATHER DISCOURAGING.

the Old Plan. The oil market yesterday took the cake for duliness, there being neither rumor, news nor

business to relieve the monotony. Some laid this state of affairs at the door of the new deal,

business to relieve the monotony. Some laid this state of affairs at the door of the new deal, and used it as an argument for returning to the old system. This is being used with considerable effect in Oil City.

The market opened at 92 and held around that figure for some time, when it rallied up to 92%. It then weakened and held around the opening price for nearly an hour, with nothing doing, and toward the close sold down to 91, from which it recovered slightly and finished at 91%—a loss of % for the day—with a feeling of uncertainty in regard to the future. Cash was a trifle higher than August. September oil was offered at 92, but not taken.

A broker remarked: "Oil is too scarce to make trading in futures profitable or possible, and I woulsu't be surprised to see the Exchanges go back to the old system."

The work for June in the field shows 555 wells finished, with a new production of 7,650 barrela, against 455 completed in May, and a new production of 6,418, making a gain in wells completed of 100, and 1,232 barrels new production. There were 104 dry holes, an increase of 14 over May. There were 621 wells drilling and 281 rigs up and building: in May 500 wells drilling and 287 rigs. The Southwest district, with 122 new wells, had a new production of 4,637 barrels, and makes the best showing of any district. The average per well for June was 13% and for May 12.

Corrected daily by John M. Oakiey & Co., 45 Sixth street, members of the Pittsburg Petro-leum Exchange.

I am satisfies that Cancer is sereditary in my family. My father died of it, a sister of my mother died of it, and my own sister died of it. My feelings may be imagined, then, when the horrible disease made its appearance on my side. It was a malignant Cancer, cating inwardly in such a way that it could not be ent out. Numerous remedies were used for it, but the Cancer grew steadily worse, until itseemed that I was doomed to follow the others of the family. I took Swift's Specific, which, from the first day, forced out the poison and continued its use until I had taken several bottles, when I found myself well. I know that S. S. & cured me.

The thief got away undetected.

—Sensational news of probable war between Costa Rica and Nicaragua over the canal comes from Pauama by steamer. The Nanaga correspondent of the Panama Star and Herald says that the war party has control of the Costa Rica Government, and urges the immediate invasion of Nicaragua unless heavy indemnity be paid for carrying the canal in San Juan river for 60 miles along the Costa Rican boundary. This land claimed by Costa Rica has once been decided by treaty to belong to Nicaragua, but this treaty will be violated.

—The south bound stage coach from Lander to Rawlins, Wyo. T., was held up and robbed late Monday night near Rongis by three road agents. Mrs. Jones, wife of the Indian agent, and her three children, were the only passengers in the coach. The robbers compelled the trunks, taking the valuables. They then took the mail bags, cut them open and took the registered letters. They kept the driver covered with a revolver until the work of going through the mail was completed, when they disappeared in the darkness. The Deputy Sheriff of Lander, with 20 Shoshoe Indians is on the trail of the robbers, with a chance of catching them.

LOCAL LIVE STOCK

Leading Features of Week's Trade at Liberty Stock Yards.

SUPPLY OF CATTLE ABOVE DEMAND

And Markets Demoralized, With Prices a a Lower Level.

SHEEP SCARCE, HIGHER---HOGS WEAK

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, July 3, 1889. Receipts of cattle on Monday were 115 loads, and to that 4 or 5 loads have been added since. The total for last week was 72 loads, and with that number there was a sufficiency for all the demands of our local trade. When 40 to 50 car-loads over and above the wants of trace are dumped on to our market, as was the case this week, there can be but one result, namely, gen-eral demoralization of the trade. All stock-men at Liberty report this week's market as

one of the very worst of the season.

There was a decline of all gracies of cattle of 15c to 25c from last week's prices, and markets were so slow at the decline that a dozen loads or more were at the yards unsold at noon to-day. Buyers from eastern counties were nuch fewer than were expected, and demand,

for export cattle was unusually light.

In the supplies this week were 35 carloads from Chicago and about an equal number from Kentucky, the latter being designated by stock-men, stillers. The holders of Chicago-bought men, stillers. The holders of Chicago-bought cattle, according to the common view of stockmen, were compelled to work more for glory than gain. It is doubtful if they would come out even on this week's transactions. Dry cows shared in the general demoralization of markets, but fresh ones were in short supply, and good grades were active and firm at last week's prices.

Monday's receipts were unusually small, in fact the smallest for a number of weeks. The light supply at once stimulated prices. There was an advance of 15@25c per cwt over Saturday's rates early Monday, and all on hand were promptly taken at the advance. It has been a long time since the supply of sheep and lambs long time since the supply of sheep and lambs was so quickly gathered in as on Monday. Many more would have found willing customers at the advanced rates. With an unusually liberal supply at Herr's Island, amounting to 1,651, against 1,088 last week, there was the same activity and firmness of markets as at East Liberty. With the very heavy run at the former yards prices, were 20450c better than they were a week ago.

Since Monday there have been heavy runs of sheep and lambs into the Liberty yards, and prices have dropped some 15c from the highest figure touched. Markets, however, continue active, and holders have no cause to complain over this week's deals.

Supply varied scarcely any from last week. prices. The demand from butchers is very light at this season of the year, and packers claim that there is little or no margin left them at prevailing prices of hogs. Heavy hogs are slow at a decline of 10glife since Monday. Light hogs and pigs hold up better.

McCall & Co.'s Review. The supply of cattle is heavy, being largely excess of the demand. The market is worst of the season, it being impossible to sell all the offerings, a good many going forward in first hands, and quite a number remaining over

unsoid. We give the following as ruling prices: Prime 1,300 to 1,600 bs, \$4 00@4 25; good, 1,200 to 1,400 bs, \$3 00@3 90; rough fat, 1,100 to 1,300 bs, \$3 20@3 50; good butcher grades, 900 to 1,100 bs, \$3 30@3 50; common to fair, 800 to 1,000 bs, \$2 75@3 15; buils and fat cowe, \$1 50@ 2 75; fresh cows and springers very dull at \$20 00 625 00 per head. 2 75; fresh cows and springers very dull at \$20 00 655 00 per head.

The receipts of bogs are fair and the market active on light; heavy grades slow. Sales today as follows: Philadelphias, 200 to 220 hs, \$4 5564 60; heavy, 250 hs and upward, \$4 2564 4 60; Yorkers, \$4 5564 75, as to weight and quality; roughs, \$3 0068 75.

The receipts of sheep Monday and Tuesday were fair and the market active at last week's prices. Today receipts are light and the market slow at a decline of 10 to 15c from Tuesday. We quote as follows: Prime Ohio and Indiana wethers, weighing here 130 to 120 hs, \$4 506 4 75; good, 90 to 100 hs, \$4694 40; fair to good mixed, 75 to 80 hs, \$4 2564 65; common to fair, 50 to 100 hs, \$4 5066 57; yeal calves, 110 to 120 hs, \$4 5066.

LIVE STOCK MARKETS. Condition of the Market at the East Liberty Stock Yards.

DROP A NICKEL IN THE SLOT.

Two New Inventions Which Provide Cool Air and a Gines of Beer. The numerous inventions of the "drop-a-nickel-in-the-slot" racket have received two more acquisitions by a couple of mechanical designs made by an attache of the electric works on Garrison alley. The first is a fan, which is attached to an electric motor. As soon as a nickel is dropped into the slot the motor is set to work and the fan begins to revolve, creating a very pleasant breeze and cooling the person who has expended the nickel. The other device shows an electric motor attached to a small pump connected with a beer barrel. If a nickel is dropped in the slot here the motor works and the pump fills a glass of the foaming amber-colored beverage. more acquisitions by a couple of mechanical

Deferred Futures-Other Lend-Ing Commodities Quiet

and Featureless.

CHICAGO—Trading in wheat was quiet to-day, but throughout the feeling was unsettled and nervors. There was another flurry in July wheat, and shorts were auxious to cover and considerable interest was manifested in this future, which fluctuated very wildly to a point 3%c above yesterday's closing, dropped back 2%c and closed the same as yesterday. The more deferred futures fluctuated within a smaller range, advancing some %c, then declined %6%c, and closed %6%c, lower than yesterday. The July future was controlled mainly by speculative infuence, and it is thought there is a pretty fair shortage out. The rains in the Southwest were destructive to crops and helped to make the short interest a little cautious.

unsold. We give the following as ruling prices:

Mil.WAUKEE-Flour unchanged. Wheat firm; cash, 77%c; September, 77%c. Corn firm; No. 3, 35%c. Oats dull; No. 2 white, 28c. Rye steady: No. 1, 43@43%c. Barley-No. 2, 61c. Provisions. easier. Pork, 511 55; August, 511 60. Lard-Cash, \$6 40; August, \$6 45. Cheese unchanged; cheddars, 868%.

NO TROUBLE AT TRINITY. Origin of Stories Concerning Vestry Changes -Mr. J. H. Shoenberger Retnined as a Life Member of the Church Government A rumor that disintegration was expected to take place in Trinity Episcopal Church on ac-count of certain changes in the vestry of the church, turns out to have been entirely with-out foundation, as the congregation is too

ports circulated. Mr. H. Lee Mason, one of the vestrymen, made a statement yesterday in regard to Mr. John H. Shoenberger, Senior Warden of the church. It seems that Mr. Shoenberger, who is now 82 years old, and who has been a vestryman of the church for 52 years, wrote to the vestry prior to the last annual meeting proffering his resignation on account of his advanced age and his continued residence in New York City. The letter was read and a series of resolutions a dopted, the sense of which was that the unanimous desire of the vestry and congregation was that, even though Mr. Shoenberger could not attend to the duties of the position, he should retain his present position to the end of his life, as his life-work in church circles had been done in Trinity parish. This action was final and so accepted by the vestry and congregation.

Although not previously made known by the

A New Candidate for Senator.

*Ex-dividend.

THE GREATEST DAY. \$2.50 per share, Pittsburg and Allegheny Bridge Company, a per cent. Nation's Bank for Savings, Allegheny, 3 per cent. Northern Liberties Bridge Company, \$2.50 per share. The total sales stocks at New York yesterday were 268,019 shares including: A tohison, 49,008, Delaware, Lackawanna and Western, 7,900; Erie, 3,310; Missouri Pacific, 7,610; Northern Pacific, 6,657; Reading, 2,400; St. Paul 33,160; Union Pacific, 17,854; Western Union, 4,821.

Plenty of Manufacturing Sites Around Pittsburg on the Market, and

PRICES STILL VERY PAR FROM PANCY

Bankers Report One of the Dullest Days of the Senson.

Nothing but routine business was transacted at the banks yesterday, and with the exception of checking, which was heavy, the volume of transactions was amall. Money was reported in good supply and rates unchanged. The movement to the country, which was quite liberal a few days ago, has about ceased. Currency and exchange were even. The clearings were \$2,000,663 71, and the balances \$368,467 76.

Money on call at New York yesterday was easy at 234,683 per cent, last loan 234, closed offered at 234. Prime mercantile paper 40534. Sterling exchange dull but steady at \$4.86 for 60-day bills and \$4.86 for commercial bills. This being the Fourth of July—the anniversary of the greatest political event in human history—which created a nation and sounded the death knell of absolutism, establishing the doctrine of the equality of man and of the responsibility of rulers to their subjects, and giving a powerful impetus to constitutional government—this day of days in the heart of every lover of liberty throughout the world will be duly and lovally observed in Pittsburg, Church, State and municipality uniting with the indi-vidual citizen to do honor to the great occa-

The banks, Exchange and all the prin-cipal stores will be closed, business will be subordinated to patriotism, and instead of the usual scramble for filthy lucre, there

the usual scramble for filthy lucre, there will be patriotic demonstrations, enthusiastic oratoryand a good time generally—provided always that the weather be auspicious and the programme be carried out as arranged.

Ex-Mayor Weaver, of Pittsburg, Pa., savs there is no longer any land in that city available for manufacturing sites. The lowest price of land situated for such uses is at leas: \$18,000 an acre, and that is more than manufacturers care to pay.

The above item, taken from the Financial Record of Birmingham, Ala., was shown to ex-

Record, of Birmingham, Ala., was shown to ex-Mayor Weaver vesterday, and he emphatically denied having made the statement attributed to bim. On the contrary, he stated that there is a large number of manufacturing sites for sale in and around Pittsburg and along the lines of the various railroads at prices ranging

from \$500 to \$1,500 an acre.

He added: "I cannot imagine how the silly He added: "I cannot imagine how the silly story got out, as I have never been interviewed on the subject, and certainly would not have said any such thing if I had been, as it is untrue in every particular, and calculated to do Pittsburg much harm. I hope the correction will have as wide a circulation as the falsehood."

Another real estate dealer said: "The state-

Another real estate dealer said: "The statement that all the manufacturing sites in and around Pittsburg have been bought up or are held at a fabulous price, is ridiculous. There are thousands of acres of this kind of property within a few miles of the heart of the city, on railroads and rivers, with natural gas and coal in abundance, and having the best kinds of shipping facilities. Some of it is rated as low as \$500 an acre; the very best sites can be bought at \$1,500 to \$2,000 an acre. Land that is suitable for building lots, of course, commands albigher price.

albigher price.
"Those intending to establish manufacturing plants of any kind should investigate for themselves, and not be influenced by a statement selves, and not be influenced by a statement that was concocted by some person who drew upon his imagination for his facts. Pittaburg affords unusual inducements to manufacturers in the way of cheap and eligible sites, natural gas and an extensive system of rail and water transportation to all parts of the country."

By virtue of her location, at the junction of two great rivers which form the Ohio, Pittsburg, already the chief manufacturing city in

burg, already the chief manufacturing city in the United States, is destined to achieve still greater prominence in the industrial world. She combines greater geographical advantages of position than any other inland city. Distant only from 300 to 400 miles from three of the most important seaboard cities of the Union, and but a day's ride from either, for the purposes of exportation and importation she pos-sesses many of the advantages of the cities lying immediately upon the seacoast. Situated in the heart of the bituminous coal formation of the Appalachian field, and on the edge of the natural gas belt, and equally ad-vantageously located as to the deposits of iron ore, her economic relations to the staple mate-rials of the Central States are unequaled. As the natural center of such an immense terri-

tory, she offers advantages to manufacturers which cannot be equaled in the Union. Beyond her advantages as a manufacturing Beyond her advantages as a manufacturing center, Pittaburg possesses another attractive feature—she is the gateway of the West. From her situation at the head of the Ohio, such commodities as have a preference for water carriage, either on account of low freights or to avoid much handling, will pass through Pittaburg to reach the channels of distribution and the West and South. This will have forced n the West and South. This will be of greate value in increasing the population of Pitts-burg, her business and wealth in the future than in the past, presenting another considera-tion to the man of capital, the enterprising, far-seeing business man, and the skilful, am-bitious mechanic, to locate in Pittsburg.

As already stated, the Tennessee river will be opened in September to Chattanooga, in the very heart of the mineral district of the South. The Memphis, Atlanta and Southern papers regard this movement as the most important made for many years, and as likely to have the most far-reaching results in regard to freight rates, in which Pittsburg has a peculiar interest. On this subject Joseph M. Brown, traffic manager of the Western and Atlantic Railroad, said the other day:

"When the work is done and the river is opened, a steamboat can be loaded with sugar and molasses at New Orleans, come up the

and molasses at New Orleans, come up the Mississippi river to Cairo, thence up the Ohio Mississippi river to Cairo, thence up the Chlo river to the mouth of the Tennessee, and thence up the Tennessee river to Chattanooga before discharging its cargo; or a steamboat can be loaded at Pittsburg with iron or any other products, and can go down the Ohio river and up the Tennessee river to Chattanooga without breaking bulk. So steamers can come from the head of navigation of the Mississippi river to Chattanooga. Thus, you see, the clearing out of the shoals will be like opening the railroad rate doors of the entire valleys of the Ohio and

Mississippi rivers to Chattanooga and Atlanta." There was a good movement in the real estate There was a good movement in the real estate market yesterday, and several important deals were closed up in addition to those reported elsewhere, among them being an Oakland resi-dence, the consideration for which approximated \$35,000. Several capitalists were in consultation with

a Fourth street agent in the afternoon, and the

presumption is that they were laying plans for a large investment in realty. ALMOST A GOOSE EGG.

Stock Brokers Too Patriotic to Give At tention to Business. The stock brokers were too full of patriotism yesterday to get down to ordinary business, and the result was a dull and featureless market: but the explosion of a giant firecracker now and then in the midst of the small crowd that faced the blackboard served, small crowd that fared the blackboard served, in some degree, to relieve the monotony. There were no transactions at the first call and only one at the last, that of 100 shares of Switch and Signal at 22½—a decline.

Electric was a little swonger in the bidding, as was also La Noria, but the rest of the list showed no particular change either way. Orders for most of the favories are expected in a few days, when a revival of activity may be expected. Bids and offers were:

Black & Baird, No. 85 Fourth avenue, sold for Walter Hay lot No. 107 in the Hay plan of Valley View Place, fronting 20 feet on Funnel street and extending back 84 feet, for \$200. The purchaser was James McCarthy, They also placed a mortgage of \$2,000 on a lot at Roup for the purpose of erecting a six-roomed brick dwelling, for three years at 6 per cent. Thomas McCaffrey, \$568 Butler street, sold for Mrs. Margaret George to Frank Nickel, lot 20x100 feet, on Muffler street, for \$500 cash. Reed B. Coyle & Co., 121 Fourth avenue, sold to J. E. Glass, lot No. 64 in the Marion Place plan of lots, for \$500.

Reed B. Coyle & Co. sold to J. E. Glass lot No. 64 in the Maryon place plan for \$500.

GRANGERS RAIDED. They Are Dumped by Chicago, Which Demoralized the Stock Market - A Reaction Toward the Close, but Losses Not Entire-

rallies, the losses were in few instances recovered, and the result of the day's operations is to leave prices for the majority of the list materially lower than last evening. The news from the West this morning was decidedly materially lower than last evening. The news from the West this morning was decidedly bearish, the St. Paul roads having all resolved to put in force the low commodity tariff of the Chicago, Burlington and Northern, while it was reported that the same rates would be put in force to Misseuri river points and other directions by the Western roads.

This naturally created a very bearish feeling, especially upon the Grangers, and at the opening of business Chicago was a heavy seller of those stocks, while first prices over the entire list were lower than last night's closing figures. Liquidation of long accounts was in order, and the bearish feeling extended to the entire list, although the Grangers were the central point of attack, and Rock Island, Burlington and St. Paul bore the brunt of the selling.

The greatest impression was made upon Rock Island, which dropped 3 per cent in the first few minutes with Burlington and Northwestern tollowing, each of which lost over I per cent in that time. Several stop orders were received, and the long selling kept pace with the sales for the short account, and the liquidation was heavier than has been seen in a long time. The general demoralization was increased in the first few minutes by a drop of over 8 per cent in sugar refineries to 112 on the story that the properties had been mortgaged for \$50,00,000, and although the story was officially denied only a portion of the loss was recovered.

The first spurt lasted about a half hour, when cially denied only a portion of the loss was recovered.

The first spurt lasted about a half hour, when
the reaction came, but the recovery did not
bring prices near the opening figures. Prices
crawled up, however, until Atchison, which
had been held firm during the break of the
foremen, suddenly gave way and dropped
about 1½ per cent. The rest then dropped, but
when Atchison recovered, which it did about
delivery hour, a firmer tone was shown, and
the best prices since the first declins were
established. Lead trust moved up sharply in
the last hour, but toward the close everything There were no sales at the first call. In the afternoon 100 shares of Switch and Signal sold at 22%.

Dividends are announced as follows:
Allegheny Bridge Company, \$1.75 per share.
Birmingham and Pittsburg Bridge Company,

ly Recovered. New York, July 3.—The stock market to-day was feverish and weak, especially in the first hour, and, although there were material Suit Against J. K. P. Deff.

The Safe Deposit Company yesterday entered suit against J. K. P. Duff and his bondsmen, William A. and William G. Duff, for \$5,000. It is stated that J. K. P. Duff was guardian of Alexander McGill Duff, a minor. He filed an account showing the amount in his hands due his ward to be \$1,253 49. A hearing was had in the Orphans' Court, and the guardian was surcharged with \$2,151 (0). A petition was filed for his removal as guardian, and this suit is also brought to recover on the bond the amount with which he is surchar, ed by the Orphans' Court.

JUDGE STOWE yesterday made an order ommitting Martin Meyer, of Indiana town-

lunatic.

The second trial of Joseph Dimey, the cabdriver, for the murder of Officer Miller, of Alleghen, will be commenced on Monday. Dimey was tried and convicted of murder in the first degree, but a new trial was obtained on the ground of irregularities in the conduct of the jurors.

The trial list in the Criminal Court for tomorrow is as fellows: Commonwealth vs F. A. Aldrich, William Brooks, William Balley, Patrick Connelly, John Bain, Maggie McDonald, John Q. Workman, James L. Orr, W. H. McCluskey, Jacob Keefer. J. Timothy, W. Smith et. al (2), John Stringer, Henry Langlitz, Andrew Gillespie, Peter Fredericks, Bridget Shaughnessy, Albert C. Bader, Henry Howells, Charles K. Gibson.

thoroughly in sympathy with Rev. Samuel Maxwell, the rector, and his coadjutors, the vestry, to furnish a cintilla of truth in the re-

The C. T. A. Union Subscribes \$1,794,25 for the Johnstown Sufferers.

General Secretary Philip A. Nolan, of the Catholic Total Abstinence Union of America, reports \$1.794 25 donated by the different unions of the order to the Johnstown sufferers. The list was started by the Rev. Father Sheedy, of St. Mary o' Mercy's Church of this city, and he feels very anch pleased with the generosity with which the different unions throughout the country have responded to the circular he sent out.

John R. Harbison, of the firm of Burleigh & John R. Harbison, of the firm of Burleigh & Harbison, has been brought out as the young men's candidate for State Scuator in the Forty-fifth district. He will have as opponents James S. Ruton, and W. W. Speer, the plow manufacturer. Business Steps Down to Let Ardent Patriotism Have a Chance. EX-MAYOR WEAVER NAILS A LIE.
